

MEMORANDUM OF COOPETATION

between

Bureau of Metrology, R. Macedonia and Turkish National Metrology Institute

On the basis of the Protocol from 5th of October 1995, between Turkish National Metrology Institute (UME) and Ministry of Economy of Republic of Macedonia-Institution of Standardization and Metrology, both parties decided to:

- a) Cooperate on the promotion of Metrology Labs in scientific and Legal metrology, with the emphasis on the establishment of national reference standards, intercomparison, dissemination of measurement techniques for calibration, measurement and test.
- b) Cooperate on the training of experts, providing consultancy, exchange information, publication and related documents.
- c) Use each others facilities for the establishment of traceability of the national reference standards.
- d) Provide reference standards and measurement equipment to each other.
- e) Exchange information on the establishment of national needs and strategic planning.
- f) Support each other in membership in international organizations and promote regional cooperation.
- g) Financing of the joint projects and services provided will be decided on each case. Both organizations will encourage third parties to provide assistance to each other.
- h) The working program for the future collaboration will be finished and accommodated by the both organizations to the end of 2006.
- i) This Memorandum has been prepared in Macedonian and English version in 4 (four) original copies, two original copies for each party.
